R-347

Extrication increased visibility impact glove with durable palm and finger patches.

Impact | Vibration | LD Light Duty

Increased visibility extrication gloves for search and rescue, combining flexibility with impact protection

- **Specialized protection:** RINGERS® R347 extrication gloves have been developed with Ringers' F3 Technology™ and a patented TPR (thermoplastic rubber) design, providing impact protection with enhanced dexterity and comfort
- **Increased flexibility:** In addition, these impact gloves' TPR shell features two standalone detached fingers, reducing rigidness and enhancing flexibility, while affording greater cut resistance
- **Improved durability and grip:** Durability is enhanced by padded palm panels and fingertips with reinforced stitching, while a synthetic leather grip system ensures a tighter grasp
- **Enhanced features:** These RINGERS® gloves' increased visibility external surface and reflective fingertips and stripes ensure they are noticeable, while a cuff closure with hook and loop TPR pull tab offers a safer, more secure fit

Industries

- Mining
- Oil and gas
- Emergency Medical Services

Applications

- Rescue extraction from confined spaces
- Operating of heavy machinery
- Crushing and unloading ore
- Shipping and loading of product
- Vehicle Maintenance
- Equipment maintenance Scaffolding Pipe handling and insulation Plumbing and sand blasting

R-347

Extrication increased visibility impact glove with durable palm and finger patches.

Key Features

- **Patented TPR design:** Knuckles, thumb and finger-length impact protection
- **Increased visibility reflective fingertips:** Enhanced wearer safety
- **Padded palm and reinforced fingertip stitching:** Excellent durability
