

MICRO-TOUCH® DENTA-GLOVE® NRL

DENTA-GLOVE® Series

Latex, powder-free medical exam glove with maximum comfort for a wide range of dental procedures

- Heightened sensitivity: The latex formulation and optimized film thickness of this non-sterile glove offers a high level of elasticity, flexibility and sensitivity
- Easy donning: The inner chlorinated surface ensures fast and easy donning
- Suitable for patient contact: Tested Safe for Oral Examination, ensuring that the glove is safe for patient contact — an ideal choice for dental specialists who switch gloves frequently and experience hand fatigue from continuous use

CAUTION: This product contains natural rubber latex, which may cause allergic reactions

Recommended For

- Enhanced grip in wet environments
- Standard, moderate risk examination procedures
- Oral examinations

MICRO-TOUCH® Everyday, Everywhere Protection

MICRO-TOUCH[®] premium medical examination gloves are scientifically designed to complement every need of medical professionals. Sophisticated design features include Ansell ergonomic technologies that ensure comfort during extended procedures, wet grip innovations that prevent harmful mishandling, and micro-thin films for maximum sensitivity. Caregivers who are fully prepared and comfortably protected by versatile MICRO-TOUCH styles have the peace of mind to focus on what matters most: the health and protection of themselves and their patients.
